I am writing to express my support for the proposed copper mine at Copper Flat.

New Mexico Copper is committed to a responsible permitting process and committed to operating the mine in an environmentally responsible manner. Copper Flat stands to be a great source of jobs, tax revenue, and other benefits for the residents of Sierra County and New Mexico. The Project would create approximately 1,300 direct, indirect and induced jobs. Once in operation, the proposed Copper Flat Mine is expected to generate approximately 250-275 direct jobs. The estimated total tax paid over construction and the mine life is approximately \$175 million; of that amount, \$53 million is projected to go to the state of New Mexico.

This project is critical for the economy of NM and I urge you to approve it.

Cody Eldridge

CFO

Wagner Equipment Co.
